RE: West Stefany Nomination for VIC KOPS Children's Challenge

ATTENTION Committee for VIC KOPS Children's Challenge Award:

It is my pleasure to highly recommend West Stefany for the VIC KOPS Children's Challenge Awards in the Science Category. As West's first grade teacher, I have had the opportunity to see his love for learning grow, especially in the area of science. West is an amazing student, who is continually teaching his peers and collaborating to deepen his expertise in science. West's curiosity to increase his understanding can be seen through the many science books he has written and youtube videos he has created. West is extremely knowledgeable, creative, inquisitive and loves sharing his scientific research and knowledge. West's ability to share his knowledge on a daily basis with our class is remarkable. I am excited to nominate West for the Children's Challenge Award in the area of science.
